

Just a brief note to define the uses of The ASUP email. Being that we are a non-profit organization, there are certain parameters that must be adhered to.

First, The ASUP email cannot be used for spam, political advertisement, religious advertisements, or mass mailings of any sort unless it directly pertains to the paranormal or events, people, or media that is of interest to the paranormal community as a whole. Things that are acceptable are - conferences, conventions or public gatherings that pertain to topics that are of interest to the paranormal community. Public news articles, announcements, streaming media, videos, audio clips, photos, and links are also acceptable as long as they pertain to the things that fall under the heading of paranormal.

Second, all members must refrain from including anything in their public ASUP signatures that might be construed as endorsing any group, religion, race, political view, sex, orientation, creed, or agenda.

This is for the protection of The ASUP as a whole and it is very important that we all do our best to protect this wonderful organization from anything that might be viewed as prejudice.

Thanks in advance,

David Sparks  
Director of Technical Services  
A.S.U.P. Inc.
